## Remote Learning Plan 2022-2025

This plan offers remote learning opportunities for all pupils. Where households have limited ICT access help will be offered by school to support children with their learning via the loan of accessing hard-copies of work and resources.

This plan will be applied in the following instances:

1. An individual is self-isolating awaiting the results of a test/has or has a positive test within the household;
2. A group of children are self-isolating because of a case of coronavirus in the bubble;
3. A whole bubble or cohort is self-isolating because of an outbreak of coronavirus
4. The school is in a government lockdown

The plan complies with the expectations and principles outlined in the DfE document [Guidance for Full Opening of Schools](#).

### **Software and online platforms**

Children will remain in contact with their class teacher through Google Classroom (learning platform) email, telephone calls and regular class zoom sessions.

Power Maths, TT Rockstars, Scratch and Purple Mash will all be utilised to support learning. Daily lessons will be posted onto Google Classroom and accompanying resources/links will be attached to each lesson when appropriate. Teachers will set work in-line with our current curriculum, supplemented by a range of Internet resources including BBC bitesize and Oak Academy. Teachers will often also pre-record teaching sessions to support children to access the learning when possible.

Work books and exercise books have been provided by school for each child to allow them to record work by hand when preferred but when possible activities can be completed on line. Hard copies of work and electronic copies can be turned in via the platform.

External programmes such as Power Maths, Scratch and BBC Bitesize have been selected to support remote learning for a number of reasons. The lessons and resources compliment and are in-line with our teaching ethos and delivery and the resources would usually be used in school within our usual lesson delivery. They are recommended by recognised teaching bodies including the DfE for promoting good learning and encourage the use of retrieval practice, explicit teaching with high quality modelling, and the use of deliberate practice. The online lessons are free to all.

## Remote Learning Plan 2022-2025

In the event of any form of isolation and loss of learning caused by Coronavirus, parents must understand that engagement in home learning is compulsory, as is the expectation that Penruddock School makes that provision available and accessible to all. However, if children themselves are too ill to attend then they should not be expected to engage in home learning. It is acknowledged that this will be a challenging time and access to devices may be limited if a whole household is isolating. Penruddock will endeavour to work closely with all families to ensure their individual needs are met.

In preparation for home-learning, parents and children will receive logins and passwords for the following platforms:

- Google Classroom
- Power Maths
- TT Rockstars
- Purple Mash
- Scratch

### Worksheets and Practical Resources

If a child is isolated from school i.e. the child is sent home from school to either receive a test or self-isolate as someone in the household is being tested, they will leave school with a pack of work. Children will have immediate opportunity to continue their learning.

### Remote Learning

The initial response to any isolation will be to provide children with home learning materials, (via the drop box in the shelter outside Class 2 or home delivery when needed). This measure will afford teachers a short time to prepare their remote learning resources. In the case of prolonged isolation or whole cohort isolation, resources will be uploaded to Google Classroom.
